

Dear Paddy,

Greetings from Fatima Mission.

After the primary education the visually impaired children have to go the secondary school . Fatima secondary school does not have facilities for them. I wanted to find out places for our visually impaired children.

I left Bulawayo 8.00 am and returned to Bulawayo at 7.00 pm without food and drink. The school is almost a three hours drive. I waited more than three hours. With great difficulty I got place for two.

After three hours waiting I had to bring them to Bulawayo. I took two of them to Bulawayo. We spent over night and the following day I drove them to the school. In Bulawayo we bought all the things needed for school having the long list of things with us. Finally both of them are settled in the boarding school.

I am waiting for another two in Fatima High school. The district education authority has given me hope.
